Ooni Limited

Strategic Report for the Year Ended 31 December 2024

The directors present their strategic report for the year ended 31 December 2024.

Fair review of the business

The principal activity of the Group is the development, marketing and sale of pizza ovens and related accessories for home use.

2024 was a year of consolidation and operational improvement following the challenging trading conditions of 2022 and 2023. Group turnover was £120.4m (2023: £157.6m), reflecting a softer consumer environment and intensified competition in the outdoor cooking sector. Despite the revenue decline, the Group significantly improved gross margin to 63% (2023: 55%) and reduced the loss for the year to £6.8m (2023: £9.3m loss).

Performance improvements were driven by the continuation of cost-saving initiatives, including tighter inventory management, optimisation of logistics and distribution costs, and rationalisation of overheads. These measures enhanced working capital efficiency and delivered year-on-year proportional reductions in distribution costs. Their benefits are expected to continue into 2025, underpinning stronger cash generation and greater resilience.

The Group remains committed to long-term investment in innovation and brand development. In 2024 we launched Koda 2 Max, our first 24" oven, alongside further accessories. Building on this, 2025 has already seen the introduction of Koda 2, Koda 2 Pro and Volt 2, as well as Ooni Halo Pro, our first mixer, which has received outstanding customer reviews and exceeded sales targets.

We have continued to strengthen our go-to-market capability through investment in digital marketing, ecommerce and our international sales teams, reinforcing relationships with leading global retailers. Our multi-channel, multi-regional approach provides diversified income streams and maximises revenue opportunities.

The Ooni brand continues to grow in consumer awareness across all markets, supported by marketing activities, award-winning products, word-of-mouth referrals and expansion of global retailer and distributor relationships.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Principal risks and uncertainties

Global Political & Taxation / Tariff Changes - The Group imports manufactured products into the US, UK and EU, and remains exposed to risks from political change, tariffs and duties. In 2025, tariff increases on goods entering the US raised prices and eroded gross margin. Management continues to monitor and mitigate these impacts.

Foreign currency risk - the group's key currencies are Sterling, Euro and US dollar. The group is exposed to transaction based foreign currency risk, which continues to be managed through a natural hedge due to non-sterling denominated trading activity which offsets exposure to the cost base.

Product failure - the group produces products which operate using combustible materials at high temperatures. The group is exposed to the risk that a fault in such a product could lead to a product recall, or worse, serious injury. The group has an extensive testing program in place to ensure that the design of products is in line with applicable certification standards, and a rigorous multi-stage quality control procedure to inspect and test products once manufactured.

Liquidity risk - the directors regularly review the forward-looking cash flow position to manage any liquidity risk. As the cash pressure from growth has declined, the group is operating within the limits of a \$6m working capital facility, and at the date of these accounts none of this facility is utilised.

Systems risk - much of the group's revenue is derived from web sales. If our website went down for an extended period this would negatively impact trade. The group's website is hosted by one of the world's leading ecommerce platform providers, and the group employs an internal web development team and external IT support function for maintenance and ongoing cyber security and resilience respectively.

Customer communities - customer advocacy is recognised as a key driver of Ooni's success. Product performance, shipping times and customer support all impact customer satisfaction and brand loyalty. We continue to invest heavily in people and systems to optimise the customer journey, including after-sale support.

Key performance indicators

Turnover for the year was £120m (2023: £157m). This decline is driven by headwinds in consumer confidence, combined with increased market competition. Our channel mix, which is a key driver of gross margin, remained balanced and broadly in line with 2023. Gross profit as a percentage of turnover improved significantly to 63% (2023: 55%) due to negotiated improvements in cost of goods and reduced global freight rates.

The group reported a loss after tax for the year of £6.8m (2023: £9.3m loss). Reducing this loss, particularly against a backdrop of reducing revenue, is a demonstration of the improvements in the cost base of the Group.

Other key performance indicators

The Group reviews a range of short and medium-term performance indicators. These include detailed performance metrics of web sales such as conversion rates, cost per customer acquisition and average transaction value - which have declined in line with the relative fall in revenue versus 2023. Our customer net promoter score and TrustPilot rating remained excellent throughout 2024.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Future developments

The Directors remain confident in the long-term outlook for Ooni. While market conditions remain competitive, we expect 2025 revenue to be broadly in line with 2024 and anticipate a return to operating profit.

The Group will continue to reinvest in product innovation to maintain market leadership, while strengthening retailer partnerships, expanding digital capabilities and driving brand awareness. Cost discipline and supply chain optimisation will remain priorities, offsetting external pressures such as tariffs.

Going concern

At 31 December the Group's cash position was £12.7m. Drawings on our facility were £0.0m (2023: £2.8m). The group forecasts for 2025 show a return to operating profit and positive cash flow generation is expected in the next financial year and beyond, driven by working capital effectiveness and cost saving measures which are already in place and bringing improvements. The Directors have reviewed the current performance and cash flow forecasts, and are satisfied that the Group's forecasts and projections, taking account of potential changes in trading performance, show that the Group will be able to operate within its facilities for the foreseeable future, and at a minimum for 12 months from the date of signing the financial statements.

The Group has comfort over operational cashflow fluctuations through its \$6m working capital facility. As at the date of this report, the Group has no drawn debt.

The Directors have therefore continued to accept the going concern basis in preparing the group's financial statements

Directors duties

Section 172 of the Companies Act 2006 requires directors to take into consideration the interests of stakeholders in their decision making. The directors continue to have regard to the interests when making decisions, including the impact of its activities on the community, environment and the company's reputation.

Acting in good faith and fairly, the directors consider what is most likely to promote the success of the company for its members in the long term. Whilst the importance of giving due consideration to our stakeholders is not new, this explains in more detail this year how the Board engages with stakeholders and setting out how directors have discharged this duty.

All directors are aware of their statutory duties and on appointment to the Board, new directors are given opportunity to meet key stakeholders. The Board will continue to keep engagement methods under review to ensure that they remain effective. The following key points are important in the assessment of the compliance with the requirements of the s172 Statement:

- The Board regularly considers the principal stakeholders and how they engage with them. The Board seeks to consider the needs and priorities of each stakeholder group during its discussions and as part of its decision making.
- The long term strategy of the company is monitored regularly to ensure this aligns with the vision of the group as a whole. The resulting assessment of future development helps inform the Board's decision making and the balance between short term and long term measures and actions.
- The Board continues to enhance its methods of engagement with the workforce through regular internal communications which are delivered by the management teams.
- The group's policies on a wide range of business and ethics related practices are regularly reviewed and updated as necessary so as to ensure continued compliance with legal and regulatory requirements and good industry practice. The Board monitor the group's policies through the ordinary course of business to ensure the policies are being adhered to.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Non-financial and sustainability information

Energy and carbon report

This section discloses our energy consumption, greenhouse gas emissions (GHG) and energy efficiency initiatives from 1 January to 31 December 2024 in line with the UK Government's Streamlined Energy and Carbon Reporting (SECR) regulation under the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations (2018).

As a large unquoted company with UK energy use over 40MWh, we are required to disclose associated UK GHG emissions from energy use.

Upon conducting the 2024 emissions calculations, an error was found with the 2023 calculations due to incorrect gas meter readings. It was found that the gas consumption figure for Ooni Park Unit 5 in 2023 was 10 times higher than it should have been. Therefore, the 2024 disclosure is presented alongside the updated 2023 figures.

Strategy

A full list of conversion factors and assumptions used can be found under the Transparency & Reporting section at <https://uk.ooni.com/pages/impact>.

This summary has been prepared following the GHG Reporting Protocol - Corporate Standard, and using the guidance set out in the UK Government Environmental Reporting Guidelines (March 2019). As this is our fourth SECR reporting year, across all categories of data, we have continued to improve the quality of primary data obtained and used in our carbon calculations and reporting

In 2024, two new offices have been added to the portfolio: Sweden and Shanghai.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Quantification and reporting methodology

Natural Gas:

- The scope of assessment now covers UK Ooni Park, Austin, Bonn and Melbourne offices.
- No mains gas consumption has taken place in the UK Lomond House, Sweden or Shanghai offices.
- Natural gas consumption data has been provided for Ooni Park, Austin and Melbourne through the use of meter readings.
- For Melbourne and Bonn, meter readings are provided for the entire building, rather than each tenant's unit. Ooni's share of consumption in Melbourne and Bonn is calculated by working out Ooni's proportion of the total building floor area each month multiplied by the total gas consumption for the building.
- For the Bonn office, invoices were provided for April 2023 - April 2024. Whilst this does not follow the reporting period, it has been assumed to be suitable to use for annual consumption.
- Green gas has been confirmed for Ooni Park Units 5 and 4a throughout 2024.
- All energy totals are on a gross calorific value basis.

Testing Fuels:

- The scope of assessment now covers UK Ooni Park, Lomond House, Austin, Melbourne and Sweden offices.
- Testing fuels are not reported in the Bonn and Shanghai offices.
- To convert the testing fuels from their different units (tCO₂e, kg, L) into kWh, the DESNZ Greenhouse Gas Conversion Factors and corresponding conversion properties have been used.
- All energy totals are on a gross calorific value basis.

Refrigerants:

- The scope of assessment covers UK Ooni Park, Lomond House, Austin and Bonn offices.
- No top-ups were recorded for refrigerants in the Melbourne, Sweden and Shanghai offices.
- Refrigerant top-ups were recorded for six AC units in Ooni Park and so this has replaced the leakage estimation previously used for this equipment. For all other units in Ooni Park and Lomond House, it could not be confirmed that no top-ups had occurred, hence the use of the estimated leakage method.
- For Bonn and Austin, as per previous years, the rate of leakage of units has been calculated.
- Two new units were installed in Lomond House in 2024, but they were assumed to be pre-charged and therefore not within Ooni's reporting boundary.
- The GWP of each refrigerant has been updated using the DESNZ Greenhouse Gas Conversion Factors (2024).

Electricity:

- The scope of assessment covers all offices: UK Ooni Park, Lomond House, Bonn, Melbourne, Austin, Sweden and Shanghai offices.
- UK Ooni Park Unit 1C has a broken meter so no usage was reported in 2024. In addition, the space was only used for storage and so has not been included in the electricity calculations.
- For Melbourne and Bonn, meter readings are provided for the entire building, rather than each tenant's unit. Ooni's share of consumption in Melbourne and Bonn is calculated by working out Ooni's proportion of the total building floor area each month multiplied by the total electricity consumption for the building.
- For the Bonn office, invoices were provided for April 2023 - April 2024. Whilst this does not follow the reporting period, it has been assumed to be suitable to use for annual consumption.
- Renewable electricity had been recorded at the following units/locations:
 - UK Lomond House - 100% renewable, full year 2024.
 - UK Ooni Park (All Units) - 100% renewable, full year 2024.
 - Sweden - 100% renewable, full year 2024.
 - Melbourne - 55% renewable, full year 2024
 - Austin - 50% renewable, full year 2024
- Electricity at Bonn and Shanghai has been reported as a standard electricity tariff (i.e. not renewable).

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Emissions and energy consumption

Summary of energy consumption for the year ended 31 December 2024:

Name and description	Metric and / or KPI	2024	2023
Gas combustion	KWh	139,865.00	91,244.00
Fuel consumed for transport	KWh	0.00	0.00
Electricity purchased	KWh	36,512.00	24,511.00
Combustion of fuels for product testing	KWh	501,675.00	419,760.00
		<u>678,052.00</u>	<u>535,515.00</u>

Summary of scope 1 (direct) greenhouse gas emissions for the year ended 31 December 2024:

Name and description	Metric and / or KPI	2024	2023
Natural gas	Metric tonnes	6.24	12.58
Product testing fuels	Metric tonnes	7.37	5.05
Refrigerants	Metric tonnes	64.77	19.84
Outside of scopes emissions	Metric tonnes	29.74	10.98
		<u>108.12</u>	<u>48.45</u>

Summary of scope 2 (indirect) greenhouse gas emissions for the year ended 31 December 2024:

Name and description	Metric and / or KPI	2024	2023
Market-based	Metric tonnes	73.17	249.93
Location-based	Metric tonnes	248.84	285.72
Out of scope emissions	Metric tonnes	107.94	108.77
		<u>429.95</u>	<u>644.42</u>

Intensity ratio

Scope 1 & 2 & select categories of Scope 3..

	2024	2023
Tonnes CO2e per £million of turnover	3	2

Total annual turnover used for intensity ratio was £120,437,502.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Energy efficiency actions

Our global Scope 1 and 2 emissions increased to 327.22 tCO₂e (2023 Restated: 323.19 tCO₂e). This is mainly due to an increase in scope of reporting across all categories of data. The data now covers new offices in Shanghai and Sweden.

In kWh terms, UK energy consumption increased to 678,052 kWh (2023 Restated: 535,515 kWh). This was driven by an increase in natural gas, electricity, and testing fuels (gas) consumption, ultimately resulting from increases in the following:

- More propane (increase from 14,700 kWh in 2023 to 28,616 kWh in 2024) and butane (increase from 191 kWh in 2023 to 2,578 kWh in 2024), and testing fuels used overall. Butane and Propane both have a higher emissions factor compared to wood burning fuels (wood logs etc.) that have reduced from 9,620 kWh to 5,284 kWh.

Refrigerant use has increased to 64.77 tCO₂e (2023 Restated: 19.84 tCO₂e), due to actual top-up data being provided for six units in Ooni Park, including large top-ups of 19.4kg, 5kg and 3.8kg.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

Measures taken to improve energy efficiency

Following our progress in 2024 and our ESOS audit conducted in February 2023 we have implemented a variety of measures in our UK offices to improve energy efficiency and reduce consumption.

In Ooni Park, we have implemented the following:

Green tariffs

- We have changed all our electricity supplies to Ecotricity, who provide us with a 100% renewable energy tariff. This has helped reduce our Scope 2 market-based emissions for FY24.
- All units with gas consumption in Ooni Park (Unit 5 and Unit 4A) are now procuring 100% green gas, resulting in no UK natural gas consumption.

Measures to improve energy efficiency. We have:

- installed LED lighting in units 3 and 1B.
- installed motion sensors to lighting in units 3 and 1B.
- installed insulation in Unit 3.
- included energy efficiency measures in plans for the upcoming refurbishment of Unit 1A.

Measures to reduce consumption. We have:

- replaced doors to reduce heat leakage and unnecessary consumption.
- built internal office spaces to make heating more efficient and reduce unnecessary consumption.

In Lomond House, we have implemented the following:

Green tariffs

- We have changed all our electricity supplies to Ecotricity, who provide us with a 100% renewable energy tariff. This has helped reduce our Scope 2 market-based emissions for FY24.

Measures to reduce consumption. We have:

- permanently closed the office 1 day per week to minimise energy wastage during low occupancy periods.

Lastly, for both Ooni Park and Lomond House, we are in the process of changing all meters to smart meters. This will help ensure that meter readings are kept up to date and any inconsistencies or errors in consumption can be investigated sooner. Where we do not yet have smart meters, meter readings are conducted monthly by the Facilities Team.

Ooni Limited

Strategic Report for the Year Ended 31 December 2024

In Ooni Park, we have implemented the following:

Green tariffs

- We have changed all our electricity supplies to Ecotricity, who provide us with a 100% renewable energy tariff. This has helped reduce our Scope 2 market-based emissions for FY23.
- For some of our units in Ooni Park (Unit 5 and Unit 4A) we are now procuring green gas.

Measures to improve energy efficiency. We have:

- replaced old high bay lights with LED lights.
- replaced our fluorescent lights with dimmable LED lights.
- serviced our boiler and replaced any old or worn parts.
- serviced (no refrigerant top-up) and cleaned our A/C units and replaced broken fans in the compressor unit.

Measures to reduce consumption. We have:

- sensor activated lights in some bathroom and shower facilities.
- re-sealed doors in unit 6 and 5 to reduce any heat from escaping through drafts, therefore reducing consumption as more heat is retained within the unit.
- continued our internal engagement and communications to encourage power saving in office premises and ultimately reduce unnecessary consumption - e.g. switching off meeting room lights / appliances when not in use.

Lastly, for both Ooni Park and Lomond House, we are in the process of changing all meters to smart meters. This will help ensure that meter readings are kept up to date and any inconsistencies or errors in consumption can be investigated sooner. Where we do not yet have smart meters, meter readings are conducted monthly by the Facilities Team.

Approved and authorised by the Board on 18/12/25

Director

Ooni Limited

Directors' Report for the Year Ended 31 December 2024

The directors present their report and the for the year ended 31 December 2024.

Principal activities

The principal activity of the company and group continued to be the sale and distribution of pizza ovens and accessories.

Directors of the group

The directors who held office during the year were as follows:

A Brown

D Garland

P Ross

M K Tapaninaho

The following director was appointed after the year end:

K Iyer (appointed 1 November 2025)

The company has made qualifying third party indemnity provisions for the benefit of its directors during the year. These provisions remain in force at the reporting date.

Dividends

The results for the year are set out on page 17.

There were no Ordinary dividends paid in 2024 (2023: £658,946). The directors do not recommend payment of a further dividend.

Disclosure of information to the auditor

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditor is unaware.

Reappointment of auditor

In accordance with section 485 of the Companies Act 2006, a resolution for the re-appointment of RSM UK Audit LLP as auditor of the company is to be proposed at the forthcoming board meeting.

Approved and authorised by the Board on 18/12/25 and signed on its behalf by:

Andrew Brown

Director

Ooni Limited

Statement of Directors' Responsibilities

The directors acknowledge their responsibilities for preparing the Strategic Report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare group and company financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period. In preparing each of the group and company financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and the company's transactions and disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Ooni Limited

Independent Auditor's Report to the Members of Ooni Limited

Opinion

We have audited the financial statements of Ooni Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 December 2024, which comprise the Consolidated Profit and Loss Account, Consolidated Balance Sheet, Company Balance Sheet, Consolidated Statement of Changes in Equity, Company Statement of Changes in Equity, and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 December 2024 and of the group's loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's ability to continue as a going concern for a period of at least twelve months from when the original financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. The directors are responsible for the other information contained within the annual report.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Ooni Limited

Independent Auditor's Report to the Members of Ooni Limited

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities, set out on page 12, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group or the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor Responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Ooni Limited

Independent Auditor's Report to the Members of Ooni Limited

The extent to which our procedures are capable of detecting irregularities, including fraud

Irregularities are instances of non-compliance with laws and regulations. The objectives of our audit are to obtain sufficient appropriate audit evidence regarding compliance with laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements, to perform audit procedures to help identify instances of non-compliance with other laws and regulations that may have a material effect on the financial statements, and to respond appropriately to identified or suspected non-compliance with laws and regulations identified during the audit.

In relation to fraud, the objectives of our audit are to identify and assess the risk of material misstatement of the financial statements due to fraud, to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud through designing and implementing appropriate responses, and to respond appropriately to fraud or suspected fraud identified during the audit. However, it is the primary responsibility of management, with the oversight of those charged with governance, to ensure that the entity's operations are conducted in accordance with the provisions of laws and regulations and for the prevention and detection of fraud.

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud, the group audit engagement team:

- obtained an understanding of the nature of the industry and sector, including the legal and regulatory framework that the group and parent company operate in and how the group and parent company are complying with the legal and regulatory framework;
- inquired of management, and those charged with governance, about their own identification and assessment of the risks of irregularities, including any known actual, suspected or alleged instances of fraud;
- discussed matters about non-compliance with laws and regulations and how fraud might occur including assessment of how and where the financial statements may be susceptible to fraud.

As a result of these procedures we consider the most significant laws and regulations that have a direct impact on the financial statements are FRS 102, the Companies Act 2006 and tax compliance regulations. We performed audit procedures to detect non-compliances which may have a material impact on the financial statements which included reviewing financial statement disclosures, inspecting correspondence with local tax authorities and evaluation advice received from internal/external tax advisors.

The group audit engagement team identified management override of controls and revenue recognition in relation to existence and cut off as the areas where the financial statements were most susceptible to material misstatement due to fraud. Audit procedures performed included but were not limited to testing manual journal entries and other adjustments and evaluating the business rationale in relation to significant, unusual transactions and transactions entered into outside the normal course of business. Audit procedures performed on revenue recognition included but were not limited to using data analytics to test transactions impacting revenue that do not follow the usual transaction flow and testing revenue transactions around the year-end date.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

1 General information

Ooni Limited ("the company") is a private company limited by share capital, incorporated in England and Wales.

The group consists of Ooni Limited and all of its subsidiaries.

The company's and the group's principal activities and nature of its operations are disclosed in the Directors' Report.

These financial statements were authorised for issue by the Board on 18 December 2025.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006, including the provisions of the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations 2008.

Basis of preparation

These financial statements have been prepared using the historical cost convention. The principal accounting policies adopted are set out below.

The financial statements are prepared in sterling, the functional currency of the company is US dollars.

Monetary amounts in these financial statements are rounded to the nearest £.

Summary of disclosure exemptions

The company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The group and company, have taken advantage of exemptions from the following disclosure requirements presented within the consolidated financial statements:

- Section 7 'Statement of Cash Flows' - Presentation of a statement of cash flow and related notes and disclosures;

The company, has taken advantage of exemptions from the following disclosure requirements for parent company information presented within the consolidated financial statements:

- Section 33 'Related Party Disclosures' - Compensation for key management personnel.

Basis of consolidation

The consolidated financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 December 2024.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

A subsidiary is an entity controlled by the company. Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the Profit and Loss Account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Inter-company transactions, balances and unrealised gains on transactions between the company and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination.

Going concern

At 31 December the Group's cash position was £12.7m. Drawings on our facility were £0.0m (2023: £2.8m). The group forecasts for 2025 show a return to operating profit and positive cash flow generation is expected in the next financial year and beyond, driven by working capital effectiveness and cost saving measures which are already in place and bringing improvements. The Directors have reviewed the current performance and cash flow forecasts, and are satisfied that the Group's forecasts and projections, taking account of potential changes in trading performance, show that the Group will be able to operate within its facilities for the foreseeable future, and at a minimum for 12 months from the date of signing the financial statements.

The Group has comfort over operational cashflow fluctuations through its \$6m working capital facility. As at the date of this report, the Group has no drawn debt.

The Directors have therefore continued to accept the going concern basis in preparing the group's financial statements

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

Key sources of estimation uncertainty

In the application of the group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised here the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the group's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts and after eliminating sales within the group.

The group recognises revenue when:

The amount of revenue can be reliably measured;

it is probable that future economic benefits will flow to the entity;

and specific criteria have been met for each of the group's activities.

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective reporting currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rate on the date when the fair value is re-measured.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the group operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the consolidated financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Research and development expenditure

Research expenditure is written off against profits in the year in which it is incurred. Identifiable development expenditure is capitalised to the extent that the technical, commercial and financial feasibility can be demonstrated.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

Tangible assets

Tangible assets are stated in the balance sheet at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction (which are not depreciated) over their estimated useful lives.

Asset class	Depreciation method and rate
Land and buildings	20% straight line
Furniture, fittings and equipment	25% straight line
Motor vehicles	25% straight line
Other tangible assets	50% straight line

Intangible assets

Separately acquired trademarks and licences are shown at historical cost.

Trademarks, licences (including software) and customer-related intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Trademarks, licences and customer-related intangible assets have a finite useful life and are carried at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life.

Asset class	Amortisation method and rate
Trademarks, patents and licenses	25% straight line
Software development	33% straight line

Investments

In the separate accounts of the company, interests in subsidiaries are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the group. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the weighted average method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

The company experienced exorbitant global freight rates between late 2021 and the end of 2022. Combined with detention charges incurred as a result of port congestion, door to door inbound freight rates peaked at up to 15 times the pre-pandemic averages. Rates have returned to normal as of early 2023. The stabilisation of these rates combined with a change ERP system allowed the company to write off any remaining excess freight charges carried in our inventory value. This resulted in a one off cost of £5.0m in 2023. The company also took the decision to amend its inventory valuation method to weighted average, which is reflected in these financial statements.

Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease.

Equity instruments

Equity instruments issued by the group are recorded at the fair value of proceeds received, net of transaction costs.

Dividends

Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the group.

Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

Defined contribution pension obligation

For defined contribution schemes the amount charged to profit or loss is the contributions payable in the year.

Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

Share based payments

Equity-settled share-based payments are measured at fair value at the date of grant by reference to the fair value of the equity instruments granted using the Black Scholes model. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the estimate of shares that will eventually vest. A corresponding adjustment is made to equity.

When the terms and conditions of equity-settled share-based payments at the time they were granted are subsequently modified, the fair value of the share-based payment under the original terms and conditions and under the modified terms and conditions are both determined at the date of the modification. Any excess of the modified fair value over the original fair value is recognised over the remaining vesting period in addition to the grant date fair value of the original share-based payment. The share-based payment expense is not adjusted if the modified fair value is less than the original fair value.

Cancellations or settlements (including those resulting from employee redundancies) are treated as an acceleration of vesting and the amount that would have been recognised over the remaining vesting period is recognised immediately.

Financial instruments

Classification

The group has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Recognition and measurement

Financial instruments are recognised when the group becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets, which include trade and other debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the financial asset is measured at the present value of the future receipts discounted at a market rate of interest.

Impairment

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the group transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Basic financial liabilities, including trade and other creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Financial liabilities are derecognised when, and only when, the group's contractual obligations are discharged, cancelled, or they expire.

3 Turnover

The analysis of the group's turnover for the year from continuing operations is as follows:

	2024	2023
	£	£
Sale of goods	<u>120,437,502</u>	<u>157,553,030</u>

The geographical split is not disclosed in these accounts as it is considered seriously prejudicial to the group.

4 Net interest payable and similar expenses

	2024	2023
	£	£
Interest on bank overdrafts and borrowings	254,520	1,755,733
Other finance costs	<u>(200)</u>	<u>-</u>
	<u>254,320</u>	<u>1,755,733</u>

5 Staff costs

The average number of persons employed by the group (including directors) during the year, analysed by category was as follows:

	2024	2023
	No.	No.
Administration and support	237	347
Other departments	<u>6</u>	<u>7</u>
	<u>243</u>	<u>354</u>

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

The aggregate payroll costs (including directors' remuneration) were as follows:

	2024	2023
	£	£
Wages and salaries	16,481,688	18,540,637
Social security costs	1,875,785	1,770,433
Other short-term employee benefits	864,425	1,026,803
Pension costs, defined contribution scheme	825,546	907,312
Redundancy costs	1,617,817	-
Other employee expense	641,451	348,448
	<u>22,306,712</u>	<u>22,593,633</u>

6 Directors' remuneration

The directors' remuneration for the year was as follows:

	2024	2023
	£	£
Remuneration	414,445	227,480
Pension costs, defined contribution scheme	26,561	26,560
	<u>441,006</u>	<u>254,040</u>

During the year the number of directors who were receiving benefits and share incentives was as follows:

	2024	2023
	No.	No.
Accruing benefits under money purchase pension scheme	<u>3</u>	<u>3</u>

In respect of the highest paid director:

	2024	2023
	£	£
Remuneration	388,231	200,980
Company contributions to money purchase pension schemes	<u>12,961</u>	<u>12,960</u>

7 Auditor remuneration

	2024	2023
	£	£
Audit of these financial statements	<u>107,500</u>	<u>97,500</u>

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

8 Operating loss

Arrived at after charging

	2024	2023
	£	£
Depreciation expense	2,097,211	1,509,649
Amortisation expense	447,762	310,367
Impairment loss	220,037	-
Research and development cost	777,891	804,730
Foreign exchange losses	481,516	1,122,096
Operating lease expense - property	<u>1,745,565</u>	<u>1,752,290</u>

9 Taxation

Tax charged/(credited) in the consolidated profit and loss account

	2024	2023
	£	£
Current taxation		
UK Corporation tax	-	1,138,520
UK Corporation tax adjustment to prior periods	<u>(542,917)</u>	<u>801,423</u>
	<u>(542,917)</u>	<u>1,939,943</u>
Foreign tax	789,310	-
Foreign tax adjustment to prior periods	<u>437,243</u>	<u>-</u>
	<u>1,226,553</u>	<u>-</u>
Total current income tax	<u>683,636</u>	<u>1,939,943</u>
Deferred taxation		
Arising from origination and reversal of timing differences	-	(316,763)
Arising from changes in tax rates and laws	<u>-</u>	<u>(19,925)</u>
Total deferred taxation	<u>-</u>	<u>(336,688)</u>
Tax expense in the income statement	<u>683,636</u>	<u>1,603,255</u>

The tax on profit before tax for the year is higher than the standard rate of corporation tax in the UK (2023 - higher than the standard rate of corporation tax in the UK) of 25% (2023 - 23.56%).

The differences are reconciled below:

Ooni Limited

Notes to the Financial Statements for the Year Ended 31 December 2024

	2024 £	2023 £
Loss before tax	<u>(6,080,330)</u>	<u>(7,683,183)</u>
Corporation tax at standard rate	(1,098,606)	(1,810,438)
Effect of revenues exempt from taxation	(89,139)	(42,547)
Effect of expense not deductible in determining taxable profit (tax loss)	74,841	187,631
Tax increase arising from group relief	36,891	-
Effect of foreign tax rates	250,050	193,990
Deferred tax expense from unrecognised tax loss or credit	1,615,650	2,273,196
Adjustments in respect of previous periods	<u>(106,051)</u>	<u>801,423</u>
Total tax charge	<u>683,636</u>	<u>1,603,255</u>

There are tax losses of £24,165,557 (2023: £16,406,351) relating to the company which have not been recognised due to uncertainty over their recoverability.

20 Pension and other schemes

Defined contribution pension scheme

The group operates a defined contribution pension scheme. The pension cost charge for the year represents contributions payable by the group to the scheme and amounted to £825,546 (2023 - £ 907,312).

A defined contribution pension scheme is operated for all qualifying employees. The assets of the scheme are held separately from those of the group in an independently administered fund.

Contributions totalling £192,108 (2023 - £181,963) were payable to the scheme at the end of the year and are included in creditors.

21 Share capital

22 Reserves

Group

Share premium

Consideration received for shares issued above their nominal value net of transaction costs.

Profit and Loss reserves

Cumulative profit and loss net of distributions to owners.

23 Share-based payments

EMI Share options

Scheme details and movements

In November 2019, the company established an EMI Share options programme that entitled employees to purchase 5% of the ordinary share capital of the company. Under the programme, the holder of the vested options was entitled to purchase shares at an agreed exercise price. The key terms and conditions related to the grants under these programmes were as follows; all the options were to be settled by the physical delivery of shares.

During the year, the company recognised total share-based payment expenses of £nil (2023 - £nil) which related to equity settled share based payment transactions.

The movements in the number of share options during the year were as follows:

	2024 Number	2023 Number
Outstanding, start of period	2,858	2,858
Outstanding, end of period	2,858	2,858

The movements in the weighted average exercise price of share options during the year were as follows:

	2024 £	2023 £
Outstanding, start of period	0.96	0.96
Outstanding, end of period	0.96	0.96
